- Strong Analytical and Critical Thinking Skills
- Excellent Communication Skills
- Team Collaboration

AWARDS

2022 Dean List Sesi 2 2022/2023
CGPA : 3.53

2023 Dean List Sesi 1 2023/2024
CGPA : 3.64

Silver Award IIEC Kolej MARA Kuala Nerang for IoT

Silver Award for PPKomp HackerRank 2023

AHMAD DANIAL BIN MOHD EZAM
Software Engineering

PROFILE

Dedicated and motivated Diploma in Computer Science student with a strong foundation in programming and computer systems. Seeking a job or entry-level position to gain practical experience and contribute to the success of a dynamic IT team.

PROJECT

Weather Forecast Analysis | Data Analysis and Visualization
April 2023 – Julai 2023

- Collected and processed weather data from various sources, such as meteorological APIs or historical datasets, using R Studio.
- Utilizing R's powerful statistical capabilities, performed in–depth analysis to identify trends, patterns, and anomalies in the weather data.
- Created visually appealing charts, graphs, and maps to illustrate weather trends and make the data more accessible to users.

Royal Pudding D'JB E-Commerce Website | Final Year Project
September 2023 – November 2023

- Developed a comprehensive E-Commerce website, "Royal Pudding D'JB," as part of the final year project using PHP and phpMyAdmin.
- Designed and implemented a user-friendly interface to enhance the online shopping experience for customers, employing HTML, CSS, and JavaScript.
- Utilized PHP for server-side scripting, enabling dynamic content generation and seamless interactions with the database.

WORK EXPERIENCE

Fullstack Developer (Intern)
Alfa Diagnostik Sdn Bhd (December 2023 – Present)

- Embarking on a solo journey as a dedicated Full Stack Developer, to create the ADEQA project, which aims to make External Quality Assessment (EQA) programs accepted around the world as invaluable tools used by laboratories to periodically assess their analytical performance and achieve added confidence in reporting their patient test results.
- Developed the project using Laravel, Bootstrap and phpMyAdmin.
- Worked on the project's front-end and back-end, ensuring that the user interface was intuitive and easy to use.
- Improved analytical quality and inter-laboratory agreement by objectively comparing results to other laboratories using the same methodologies, instruments, and reagents.
